Hiring Manager

Coalition Technologies

Dear Hiring Manager,

I am writing to express my interest in the Laravel Developer position at Coalition Technologies. With over three years of experience in web development, specializing in Laravel, I am excited about the opportunity to contribute to your innovative team. My background includes a blend of part-time professional work, internship experience, and personal projects that have honed my skills and deepened my understanding of backend development.

Currently, I am a part-time developer at Devslab, where I have been responsible for developing and maintaining various web applications. My role involves collaborating with cross-functional teams to deliver high-quality software solutions, debugging issues, and ensuring the scalability and performance of our applications. This experience has solidified my proficiency in Laravel, PHP, and other related technologies.

Prior to my role at Devslab, I completed an internship at SOLVIT, where I worked extensively with Laravel as a backend developer. During my time at SOLVIT, I was involved in the full development lifecycle, from gathering requirements and designing database schemas to implementing features and performing unit tests. This internship provided me with valuable insights into industry best practices and agile development methodologies.

In addition to my professional experience, I have actively engaged in several side projects that have allowed me to explore and experiment with various aspects of web development. These projects range from developing custom content management systems to creating e-commerce platforms, all using Laravel. These personal initiatives have not only expanded my technical skill set but also demonstrated my ability to manage projects independently and stay up-to-date with the latest advancements in web technologies.

I am particularly drawn to Coalition Technologies because of your commitment to innovation and excellence in web development. I am confident that my technical expertise, combined with my proactive and solution-oriented approach, would make me a valuable asset to your team. I am eager to bring my background in Laravel development to Coalition Technologies and contribute to your continued success.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with the needs of your team. Please feel free to contact me at +250787493865 or vierrashema@gmail.com to schedule an interview.

Sincerely,

Vierry Shema
