Bank of Kigali

RE: Software Test Engineer

Dear Hiring Manager,

I have been inspired by the Bank of Kigali mission for several years and would welcome the opportunity to contribute to continued growth and success as the next Software Test Engineer. After completing a degree in software engineering from Adventist University of Central Africa, I am confident that my academic history and drive for creative solutions will bring a positive new facet to your team.

Inspired by innovation, I thrive on experimenting with different concepts and have been commended for inspiring and developing unique and thought-provoking ideas. I have cultivated performance testing, test analysis and software performance testing skills through a range of practical experience in various projects I did in my previous roles. These strengths, combined with my passion for the industry have created a strong foundation to meet the needs of the Software Test Engineer opportunity. I strive to contribute to an energetic and team-driven work culture.

I am artistic and dependable but also aim to bring a cheerful and enthusiastic attitude to every project. Bringing strengths in critical thinking, communication and problem-solving, I know that my creative abilities will serve to bring a valuable addition to your organization. I look forward to the opportunity to create and grow as your new Software Test Engineer and look forward to further discussing the role.

Sincerely,

Vierry Shema
